Endnote Windows Installation Instructions

1. Download Endnote zip folder to your desktop from the OCIO Software Download page.

2. Right Click on Zip folder and select Extract All

3. Step through the “Compressed Folders Extraction Wizard” by clicking on “Next” twice. Click Finish ensuring that the “Show Extracted Files” box is checked.
4. The extracted files folder appears. Ensure that the .msi and License.dat file are both in the same folder.

5. Double click on the .msi file to begin the installation. Take the default settings to complete the installation.
