Importing Citations from PubMed to RefWorks

1. In PubMed, select the citations you want to import.
2. Click on "Send to" and choose "Citation manager".
3. Select the destination for the citation file (File, Clipboard, E-mail, My Bibliography).
4. Click "Create File" to generate the file.
5. Save the file to your computer.
6. In RefWorks, go to the "+" button in the "All Documents" section.
7. Select "Import references" and choose "Import from RefWorks, Mendeley, or RIS file".
8. Select the file you saved from PubMed.
9. Choose the format (e.g., NLM PubMed)
10. Click "Import" to add the citations to RefWorks.
